**Front-end Development:** React, Next.js, HTML, CSS, JavaScript, Zustand

**UI Libraries:** Material UI, Shadcn UI, Tailwind CSS

**Back-end Development:** Node.js, Express.js, Next.js, MongoDB

**Tools and Technologies:** VS Code, Sublime Text, Git, GitHub

**Content Management Systems:** WordPress, Wix, Squarespace

**Soft Skills:** Problem Solving, Adaptability, Decision Making

## EXPERIENCE

### • GOHASHINCLUDE PVT. LTD

Feb 2024 - Present

Frontend Developer

- Built and maintained responsive web applications using React.js, focusing on creating reusable components and managing state effectively with hooks and context API
- Implemented client-side routing with React Router for seamless navigation and improved user experience.
- Used React performance optimization techniques such as code splitting, lazy loading, and memoization to enhance application speed and efficiency.
- Managed code versioning, branch strategies, and pull requests efficiently using Git and GitHub.
- Customized and styled third-party components to match the overall design and user experience of the application.
- Worked closely with UX/UI designers, backend developers, and QA engineers to ensure cohesive and high-quality websites.

### • ViralChilly Digital Marketing and Web Development Company

Feb 2023 - Jan 2024

Frontend Developer

- Proficient in creating responsive web designs using HTML5 and CSS3, ensuring compatibility across various devices and browsers.
- Collaborating within a team environment to create and implement innovative web solutions.
- Develop visually appealing, user-friendly, and responsive websites in accordance with client specifications and industry best practices.
- Develop and customize CMS platforms to meet specific client needs.
- Provide guidance and mentorship to new interns, helping them to develop their skills and integrate effectively into the team.

## PROJECTS

---

- **Waygood Agency Management System** *Project description (A 3-panel software for agency and event management)*  
Nov 2024 - Present
  - Designed and implemented a multi-panel system including Super Admin, Agency Admin, and Student portals for seamless user interaction and management.
  - Built a robust event management module with a step-by-step form for event creation and tracking, enhancing user experience.
  - Developed role-based access control and user management to streamline permissions and secure system usage.
  - Implemented an agency management system, enabling Super Admin to create and manage agency accounts efficiently.
  - Integrated a calendar system with event management for efficient scheduling and tracking.
  - Utilized Next.js for server-side rendering (SSR), ensuring fast performance and SEO optimization.
  - Currently enhancing features for agency workflows and optimizing the user experience with modern frontend technologies.
- **Bakery Management System** *Project description (Bakery Management System: Efficient bakery operations)*  
Feb 2024 - Aug 2024
  - Implemented a secure authentication module for robust user management and role-based access control.
  - Developed comprehensive order management, including cart orders, pending orders, standing orders, and total weekly orders for seamless order processing.
  - Created a dynamic user management module to handle customer, supplier, and staff information, ensuring smooth operational workflows.
  - Designed intuitive dashboards with real-time analytics, allowing for effective data-driven decision-making.
  - Implemented pagination and sorting features across modules, enhancing data handling and improving system performance.
  - Facilitated order tracking and history functionality, enabling users to monitor past and current orders efficiently.
- **Human Resource Management System** *Project description (Developed HRMS with four panels.)*  
June 2024 - Dec 2024
  - Implemented a secure authentication module for robust user management and role-based access control.
  - Designed a complete Employee Management module with CRUD functionality, covering onboarding, role assignments, and personal data management.
  - Developed Team Management features, allowing managers to create and oversee team structures efficiently.
  - Integrated a Leave Management system, facilitating leave applications, approvals, and tracking balances.
  - Implemented Department Management for organizing departments, ensuring structured workflows and clear hierarchies.
  - Implemented a multi-panel structure for Admin, Manager, Employee, and HR roles, ensuring tailored access.
- **Sattler & Froß Law Firm Website** *Project description (Website development for Law Firm)*  
October 2023
  - Utilized Oxygen Builder to develop a dynamic and responsive WordPress website, ensuring seamless functionality and visually appealing design.
  - Developed a professional website for Sattler & Froß Law Firm, providing comprehensive information about their legal services and expertise.
  - Implemented features such as contact forms, appointment scheduling, and informational sections to enhance user engagement and facilitate client interaction.
  - Collaborated closely with seniors to ensure alignment with their vision and objectives, delivering a website that meets their specific needs and requirements.
  - Utilized Advanced Custom Fields (ACF) to seamlessly integrate and manage frequently asked questions (FAQs).

## ACHIEVEMENTS

---

- **Earned a LinkedIn Skill Assessment Badge in Front-End Development.**
- **Completed Front End Development certification program | Coding Ninjas | from June 2023 to August 2023.**
- **Earned a Certificate from Coding Ninjas, showcasing coding expertise and mastering industry-relevant skills.**
